The submission of a paper implies that the paper is original and has not been submitted under review or copyright protected by the author if accepted. Besides papers in regular sessions, papers in special sessions are also invited to provide forums for focused discussions on new topics and innovative applications of established approaches. A special session consists of at least four related papers. Proposals for workshop should include the organizers names, author names, paper titles, abstracts, and brief statements on the purposes of the sessions must be submitted to by February 15th, 2007.

All papers should be submitted electronically via Online Paper Submission System. The format of the initial submissions can be PDF. The file of the final accepted papers should be in either Word or Latex. All submitted papers will be refereed by experts in the respective fields according to the criteria of originality, significance, quality, and clarity. The authors of accepted papers will have an opportunity to revise their papers and take into consideration the referees’ comments and suggestions, before submitting the final papers. All accepted papers with paid registration will be included in the Proceedings of ISDA’07, to be published by IEEE Computer Society.

**Workshops Proposal:**

Researchers are invited to propose a technical session/workshop in on a related topic of interest and new trends in intelligent systems engineering. All proposals should be sent to the Workshop Chair.
